

Białowieża Forest

Saturday, September 21st

9:00 – 18:00

99,00 EUR

Białowieża Forest is the last natural forest in the European Lowlands. It was created without human contribution and is the only natural site in Poland listed as a UNESCO World Heritage Site. Thanks to the existence of the Forest in our part of Europe, the bison – the largest mammal of the Old Continent – survived. The Polish part is now home to about 700 bison, under the permanent care of the Białowieża National Park. Also, there is a great wealth of wildlife, including those very rare in Europe – such as species of European woodpeckers. We will visit the ancient Białowieża Forest and discover its most interesting parts.

The trip includes:

- 🌀 Odrynki – visiting the skit in the Kudak wilderness area (an Orthodox hermitage, a branch of the Supraska Monastery with two Orthodox churches, resembling a fortified town surrounded by the waters of the Narew River, accessed by a footbridge over the Narew River valley)
- 🌀 European Bison Show Reserve: educational pavilion and aviaries with animals including the King of the Forest – the bison
- 🌀 Palace Park: a historic English-style park with an obelisk commemorating the hunting of King August II the Strong and remnants of buildings from the tsarist palace complex.
- 🌀 Lunch
- 🌀 Trześcianka – wooden Orthodox church of St. Michael, commemorative obelisk, interesting wooden architecture of one of the three villages where wooden houses are distinguished by rich ornamentation. The windows have colourful shutters, it is also accepted to decorate the corners of houses, roof eaves or ornaments above the windows. All the ornaments look absolutely fabulous.

The trip may be cancelled in case of gathering less than 10 people.
